

# DinoStrings Finger numbering

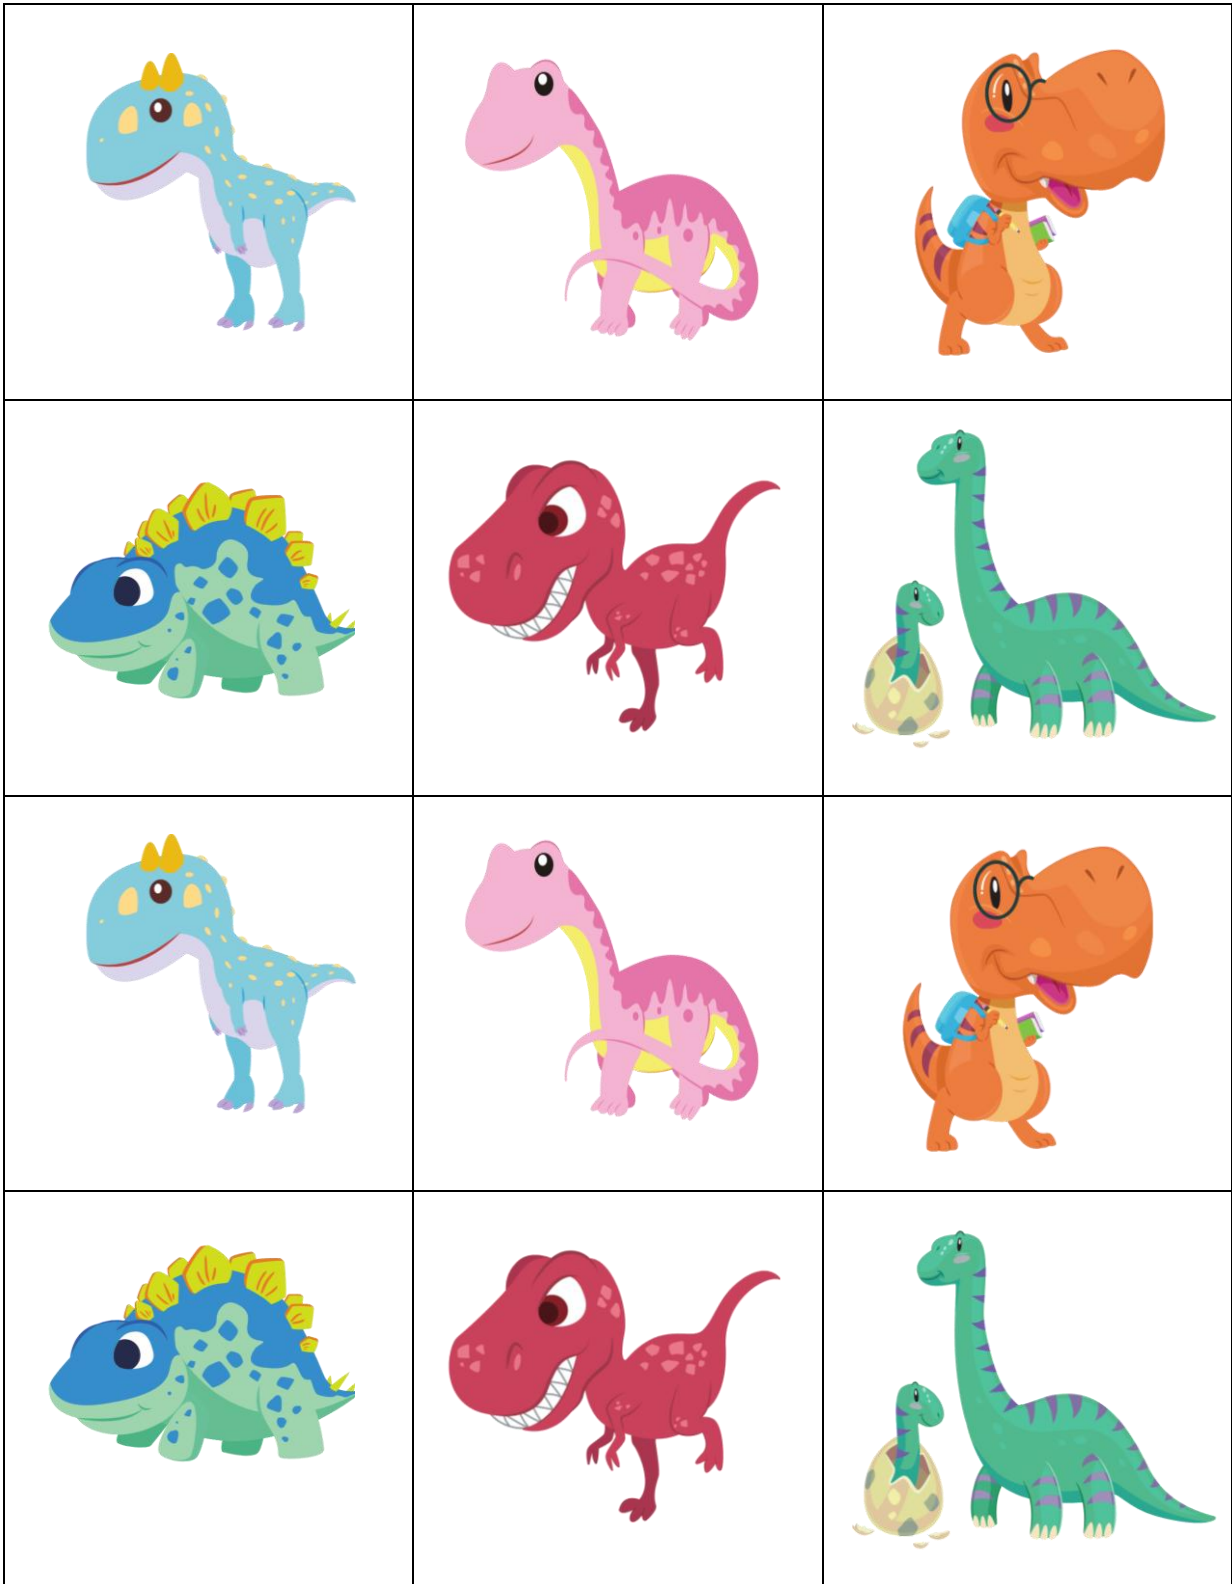

Finger number instruction should be revisited often. While the concept seems simple it is a stumbling block for more students than many people realize.

Some options how to use this Finger number cards

1. Use a dice how many cards the students may turn
2. Take a card from the deck and play on the violin.  
Take turns
3. Take 10 cards and place them one after the other.  
Play and change the order till you have a composed a nice melody.

These cards are also useful for teaching the low 1st  
and 2nd fingers
